

# A Sustainable Future, Our Driving Force

## Vision 2030

Essex Solutions places a high value on sustainability and environmental conservation; we are motivated by and dedicated to our Vision 2030 program, which guides our path to creating a sustainable future. From manufacturing process improvements to our Packaging Return Program through re-usable plastic pallets or magnet wire recycling, Essex employees and facilities work each day to maintain a sustainable environment.

We are investing in multiple Green Production methods, and we aim to spearhead our Vision 2030 initiative by reducing our carbon footprint, reduce energy and water consumption, invest in renewable energy while implementing Zero Waste to Landfill operations at all facilities, globally.

As an organization, Essex has set carbon reduction targets to provide our employees with a path to reduce Greenhouse Gas emissions. Additionally, we are creating circular economy opportunities that aid in tackling global challenges like climate change, biodiversity loss, waste, and pollution.

We believe that embracing the holistic sustainability principles outlined in Vision 2030 will naturally create a system that improves the life cycle of our products, contributes to our carbon reduction goals, and aligns with our customer values.

# Packaging Return Program

Do your part to support a Circular Economy by returning your reels, spools and pallets.

## PROGRAM GUIDELINES:

1. All reels, spools, and returnable pallets (packaging material) are property of Essex Solutions and must be returned via its authorized agent.
2. Buyers are required to contact Essex Solutions' authorized agent for instructions prior to return of the packaging material.
3. To qualify for a pick-up, buyers must either have a full trailer of packaging material, or 4 full pallets/gaylords of reels and spools.
4. Packaging material will be picked-up within 8 working days when possible. If you experience a service issue, please contact your designated Essex Solutions customer service representative.
5. Packaging material must be handled with care and stored indoors in a cool, dry place out of direct sunlight.
6. Essex Solutions reserves the right to charge for packaging materials not returned within 6 months of receipt or which are damaged as the result of improper handling or storage.
